

Turbo Fire EVO Wireless Controller Black

XBOX360 PRODUCTS

PRODUCT DESCRIPTION

Turbo Fire EVO™ is a revolutionary wireless controller for Xbox 360®, with integrated Combat Command LCD Display – a unique built-in customizer to tailor the controller to the way you want to play!

- Fully Wireless compatible with Xbox 360™ - Direct Sync - No cord or dongles required
- Unique built in 1.7" TFT COMBAT COMMAND LCD lets you select from a huge range of features directly on the controller!
- Customizer feature - enabling users to further customize controller settings for specific games
- 20ft wireless range
- Seamless control and accuracy
- Programmable vibration feedback
- Full analogue input
- Integrated headset port for Xbox Live™ play
- Dual rumble motors
- Blue glowing grips when Turbo Rapid Fire is enabled
- Requires 2 x AA batteries (not included) - Accepts Standard Rechargeable battery packs

EVO's™ secret weapon is its unique Combat Command customizer feature. Give yourself the firepower advantage by selecting from: Multimode Turbo Fire, Sniper Mode, Low Recoil, Button Remapping, Combo sequences and much more. All selectable via EVO's integrated 1.7" LCD display.

Remap EVO's™ controller buttons the way you like them. Swap the analogue sticks around if you're left handed, or even apply the configuration from one game to use in another. Once you've selected your configuration, your settings will be stored on your EVO™ controller, ready to use.

All this functionality packed into a stylish, precision engineered and exceptionally rugged controller which delivers performance and is built to withstand aggressive fast paced game play!
